Introduction (2) - Motivation: In
this course, we are primarily
interested in heat, which is the
form of energy than can be
transferred from one system to
another as a result of temperature
difference. The science that deals
with the rates of such energy

transfers is called Heat Transfer.
Why do we need to undertake a ...

to Engineering Heat Transfer
These notes provide an
introduction to engineering heat
transfer. Heat transfer processes
set limits to the performance of
aerospace components and
systems and the subject is one of
an enormous range of application.
The notes are intended to describe
