The 5 E's: The 5 E's is an  
instructional model based on the  
constructivist approach to  
learning, which says that learners  
build or construct new ideas on  
top of their old ideas. The 5 E's  
can be used with students of all  
ages, including adults. Each of  
the 5 E's describes a phase of  
learning, and each phase begins  
with the letter "E": Engage,

Lesson focuses on the  
engineering behind building  
framing for structures, and  
explores examples of geodesic

Students work in teams to design  
and build a small dome frame out  
of everyday items that can hold a  
weight of 10kg.
